EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

- Page 14, line 4, "roller" has been changed to --belt--.
- Page 16, line 26, "provid d" has been changed to --provided--.

Allowable Subject Matter

2. Claims 1-17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1-6

None of the prior art of record teaches or suggests an image forming apparatus comprising a secondary transferring device provided in proximity to a primary transferring device on downstream side of the primary transferring device along a pivotal rotation direction of an intermediate transfer member, and a position determining device abutting against a plane of the intermediate transfer member where the toner image is not held, for determining a position between the primary transferring device and the secondary transferring device.

Claims 7-11

None of the prior art of record teaches or suggests an image forming apparatus comprising a tension roller abutting against a rear surface of an intermediate transfer member;

Art Unit: 2852

wherein said tension roller forms a primary transfer portion, a flat plane portion directed to a secondary transfer portion, and arranged within a projection area which is directed from a secondary transfer member for forming the secondary transfer portion to an image carrier.

Claims 12-17

None of the prior art of record teaches or suggests an image forming apparatus comprising an intermediate transfer belt made of an elastic belt which abuts against an image carrier in a wrap shape at a primary transfer portion, and a position determining member provided inside the intermediate transfer belt and provided between the primary transfer portion and a secondary transfer portion, for determining both a position of the primary transfer portion and a position of the secondary transfer portion.

Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Fukao et al. ['900] disclose an image forming apparatus having an intermediate transfer belt.
- Sato ['054] discloses an image forming apparatus.
- Yamada et al. ['178] disclose a method and apparatus for color image forming.

Art Unit: 2852
